

November 6th 2025

Dear Customer

Notice of price revision for PCB tools

We are pleased to hear of your continued prosperity.

We would like to express our sincere gratitude for your continued support.

For many years, we have been selling PCB tools. We deeply appreciate the support we have received from our customers.

Considering the recent surge in raw material costs and other challenging circumstances, we have been striving to reduce costs, but unfortunately, we have determined that it is difficult to continue selling at the current prices.

Therefore, after careful consideration of all factors, we will be revising the prices of our Japan made PCB tools for shipments starting in January 2026.

Please check below for the details.

Also, please be aware that we will reconsider this matter if there are any significant changes in raw material prices in the future.

We appreciate your understanding and cooperation.

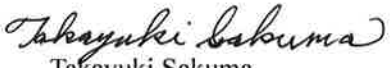

◆Applicable products: All types of PCB tools (Made in Japan)

◆Applicable date: From Shipments in January 2026 onwards.

◆Price revision rate

Item	Price revision rate
Composite drill	15% or more
Solid drill	20% or more
Standard router	20% or more
Special router	+USD0.27 or more
Inverse diameter drill	20% or more
